

PACER P14 RUST REMOVER

PRODUCT DESCRIPTION:

Pacer P14 Rust Remover is a Phosphoric acid-based product specially formulated to chemically remove rust from iron and steel having a short-term protective coating ready for priming and filling. It is suitable for all accessible areas that are to be immediately primed or rust proofed.

APPLICATION:

Rusted iron or steel surfaces where it is not practical to remove the existing rust completely. Can be used on rusted steel, ferrous components, rusted galvanized steel. Suitable for use in household, automotive, industrial and marine applications both interior and exterior.

SURFACE PREPARATION:

Grind or sand off excessive layers of rust. Clean off excess dirt, oil and grease. Wipe over with Pacer wax and grease remover to ensure you are working with a clean surface.

DIRECTIONS:

Apply a liberal coating of RUST REMOVER over the metal surface. Scrub with a coarse abrasive pad or steel wool to speed the removal of heavier rust. Abrade aluminum surfaces with coarse nylon abrasive pad only. While still wet, wipe the surface with a damp cloth and immediately

wipe dry with a dry rag. Do not allow RUST REMOVER to dry on the surface. Crevices, seams, and lap joints should be air blown to remove any trapped RUST REMOVER. Paint the treated surface as soon as possible (preferably within 3 hours)

CLEAN UP:

Clean brushes, scouring pads and small spills with water

STORAGE:

Store upright in a cool, dry, well-ventilated area away from heat, ignition sources and direct sunlight. Always replace the lid securely after use.
